Contributor

Open Source Connect India

2025

Remote

- Contributed to open-source projects by fixing UI issues and building frontend features.
- Collaborated with maintainers and other developers to improve project accessibility and UI quality.

PROJECTS

SmartChat-Assistant. A smart chat assistant is a web app made with HTML, CSS, and JavaScript that helps users chat, ask questions, and get quick automated answers.

Coffee-Creation. Coffee Creation is a responsive website made with HTML and CSS that showcases coffee types, recipes, and café details, adapting beautifully to all screen sizes.

Weather Forecasting. A weather forecasting app built with HTML, CSS, and JavaScript uses the OpenWeather API to show real-time temperature, weather type, wind speed, and humidity.

Spotify Clone. A Spotify Clone made with HTML and CSS showcases a music player layout where users can view songs and playlists in a stylish, responsive Spotify-like design.

E-Commerce Website. An E-commerce website built with HTML and CSS displays products, prices, and details in a clean, responsive layout, allowing easy browsing and a smooth shopping experience.

CERTIFICATES

- Fundamentals of Object Oriented Programming (Nptel)
- Deloitte Technology Simulation
- Adobe India Hackathon (Unstop)
- Github Copilot Fundamentals (Microsoft)
- Introduction to Modern AI (Cisco)
- Young Professional (TCS iON)
- C++ Bootcamp (DevTown)
